WHO WE ARE

The Collins Bay & District Horticultural Society was established in 1954.

WHAT WE DO

Our monthly meetings feature speakers to talk about all things horticultural and we share in each other's stories. We have two flower and plant shows each year (June & Sept).

We hold a plant sale open to the public in May which generates the majority of our yearly fundraising.

We also volunteer our time to maintain local community gardens, including Loyalist Gateway Gardens by Fairfield Park and a small garden at Front Street and Bayridge Drive.

Please support our local garden centres who offer our members a 10% discount on live goods when showing your membership card prior to the cashier ringing through your purchase.

Check our website for a list of nurseries that offer our members a discount.
